

Boulevard

VENT-FREE LINEAR FIREPLACES

*With its strong horizontal lines,
contemporary burner,
and chic accessories
a Boulevard Linear Vent-Free Fireplace
adds drama to any décor.*

***Designed for eye-level,
in-wall installation
Boulevard Fireplaces
feature modern technology,
artfully applied.***

The Millivolt system operates with a standing pilot and includes an on/off remote control. Additional remote controls are available – including thermostat and programmable models.

The Green Earth Preferred Intermittent Pilot system eliminates the standing pilot – saving energy – and comes standard with a thermostat remote that allows you to adjust the flame height to suit your mood and heat requirements.

Press the button to light the fire – or just let the thermostat maintain your desired room temperature.

Thanks to advanced logic circuitry, the IP system's thermostat anticipates heat demand to minimize temperature fluctuations in the room.

Complete your fireplace installation with a decorative front - available in two distinct styles:

The Tidewater adds a sense of gentle motion to the Boulevard's linear profile. Laser-cut from a single piece of metal, the Tidewater is available in matte black or hammered pewter.

The EastGate creates a bold multi-layer frame that combines hammered pewter with matte black.

Both frames provide a clean transition to the surrounding wall to accentuate the Boulevard's modern design.

BOULEVARD VENT-FREE LINEAR FIREPLACE ACCESSORIES

LINERS

The Boulevard's matte black interior makes a great backdrop for the linear burner, but we also offer porcelain liners, decorative droplets, and overhead lighting to let you completely change the character of your fireplace.

Standard Matte Black interior.

Porcelain Black adds to the illusion of depth.

Cobalt Blue creates the mood of a night sky.

Porcelain White reflects flames and room light, while preserving a lighter, more open feel.

GLASS DROPLETS

Glass droplets may be used with or without a liner. Your dealer may offer additional colors. Use only one-inch glass droplets specified for fireplace installation.

Onyx Solid droplets — rich black reflective

Ruby Clear droplets — translucent deep red

Topaz Clear droplets — translucent bright blue

LIGHTING KIT

Whether you choose a liner, glass droplets, or both, the optional lighting, mounted above the burner, lets your fireplace serve as a focal point even during warm months.

Optional Lighting Kit

**Beautiful,
elegant,
and efficient . . .
your Boulevard
fireplace will add
value, ambiance,
and warmth
to your home.**
